REQUESTED SERVICES AND BUSINESS INFORMATION

1. GENERAL BACKGROUND INFORMATION

- A. Dane County is inviting proposals for the architectural and engineering design services necessary for the expansion and modification of the existing Dane County waste transfer station building to create a construction and demolition waste recycling facility at the site. The 20,850 square foot transfer station was constructed in 2012 and opened for operation in January 2013. General floor plan and elevation drawings for the building are included in Appendix A. A complete plan set for the existing building can be provided to the selected Proposer. The annual quantity of construction and demolition waste acceptance at the transfer station is projected to be 33,000 tons in 2014. The facility should be designed to be capable of processing 25 to 30 tons per hour.
- B. As the result of a competitive request for proposal process, Dane County and Landfill Reduction & Recycling, Inc. (LRR) of Appleton, WI are currently in negotiations to have LRR operate the facility. Landfill Reduction & Recycling has prepared a conceptual plan for the necessary equipment, and building and site modifications based on their experience in operating a facility. The conceptual plan is included in Appendix B. Proposers are encouraged to include Landfill Reduction & Recycling as a sub consultant on their design team. The conceptual plan is intended to provide Proposers with general design guidelines for this facility. However, Dane County is interested in Proposer's creativity and design ability, especially as it relates to alternate designs for the facility that would increase its functionality and/or reduce its cost based on the design experience of the Proposer.

It is appropriate for the A/E to also immediately advise the contractors of substantial deficiencies, and that notification of these deficiencies will be made to COUNTY. The A/E shall furnish such data as necessary to inform COUNTY of the degree of the noncompliance with the Construction Documents, the cause thereof, the impact on schedule and cost, if known, and a recommended course of conduct. COUNTY shall be solely responsible for implementation of the A/E's recommendation. This assumption of responsibility by COUNTY shall not relieve the A/E or its consultants for negligence in the discovery of the condition, which was or should have been discovered.

The evaluation and recommendation shall be completed within five (5) working days of receipt, or in accordance with another schedule approved by COUNTY. The evaluation shall consider the necessity for such change, the reasonableness of the proposed change, and an analysis of the cost proposed for effecting the change.

2.G.8) The A/E shall assist in the preparation of applications for energy incentive programs, when applicable.

2.G.9) Upon contractor's written notification and the COUNTY Project Manager's confirmation that Substantial Completion has taken place, the A/E shall observe the construction and provide a written punchlist to the COUNTY Project Manager. The COUNTY Project Manager will schedule the punchlist inspection in conjunction with the User and contractors involved. The punchlist shall contain items found not to be complete, in need of correction, replacement or otherwise not in accordance with the Construction Documents.
