ATTENTION ALL REQUEST FOR PROPOSAL (RFP) HOLDERS

RFP NO. 312008 - ADDENDUM NO. 2

CNG FUELING STATION

PROPOSALS DUE: THURSDAY , MAY 10, 2012, 2:00 PM.
DUE DATE AND TIME ARE CHANGED BY THIS ADDENDUM.

This Addendum is issued to modify, explain or clarify the original RFP and is hereby made a part of the RFP. Please acknowledge this Addendum in your Proposal.

PLEASE MAKE THE FOLLOWING CHANGES:

1. Number of Hoses

To clarify language in the RFP, the fuel management system must be able to authorize fueling transactions and provide accurate accounting of all fuel being dispensed for:

- Two (2) gasoline hoses/fueling positions
- Two (2) diesel hoses/fueling positions
- Two (2) fast fill CNG hoses/fueling positions
- Four (4) slow fill CNG hoses/fueling positions

2. Slow Fill / Time Fill Metering

As mentioned in the original RFP, the fueling system and the fuel management system must be able to track the amount of fuel being dispensed by the slow fill / time fill hoses. It is acceptable to Dane County to track fuel dispensed by all four slow fill / time fill hoses using a single meter. This must interface with the fuel management system so that Dane County is able to accurately record the amount of fuel dispensed in a slow fill manner.

3. Tracking Biogas Usage

Dane County wishes to track the amount of biogas used to produce CNG. In order to accomplish this, Dane County will install a flow meter at the back end of the Cornerstone/Unison skid that is used to clean up landfill gas.

4. Two Compressors

Specification Section 13210, paragraph 3.1.B

Replace "one compressor" with "two compressors."

If any additional information about this Addendum is needed, please contact John Welch at 608/516-4154 or Welch@countyofdane.com.
