- .1 the Owner first provides notice to the Contractor and the Surety that the Owner is considering declaring a Contractor Default. Such notice shall indicate whether the Owner is requesting a conference among the Owner, Contractor and Surety to discuss the Contractor's performance. If the Owner does not request a conference, the Surety may, within five (5) business days after receipt of the Owner's notice, request such a conference. If the Surety timely requests a conference, the Owner shall attend. Unless the Owner agrees otherwise, any conference requested under this Section 3.1 shall be held within ten (10) business days of the Surety's receipt of the Owner's notice. If the Owner, the Contractor and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement shall not waive the Owner's right, if any, subsequently to declare a Contractor Default;
- .2 the Owner declares a Contractor Default, terminates the Construction Contract and notifies the Surety; and
- .3 the Owner has agreed to pay the Balance of the Contract Price in accordance with the terms of the Construction Contract to the Surety or to a contractor selected to perform the Construction Contract.

§ 4 Failure on the part of the Owner to comply with the notice requirement in Section 3.1 shall not constitute a failure to comply with a condition precedent to the Surety's obligations, or release the Surety from its obligations, except to the extent the Surety demonstrates actual prejudice.

§ 5 When the Owner has satisfied the conditions of Section 3, the Surety shall promptly and at the Surety's expense take one of the following actions:

§ 5.1 Arrange for the Contractor, with the consent of the Owner, to perform and complete the Construction Contract;

§ 5.2 Undertake to perform and complete the Construction Contract itself, through its agents or independent contractors;

§ 5.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and a contractor selected with the Owner's concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Section 7 in excess of the Balance of the Contract Price incurred by the Owner as a result of the Contractor Default; or

§ 5.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor and with reasonable promptness under the circumstances:

- .1 After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, make payment to the Owner; or
- .2 Deny liability in whole or in part and notify the Owner, citing the reasons for denial.

§ 6 If the Surety does not proceed as provided in Section 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Section 5.4, and the Owner refuses the payment or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.

§ 7 If the Surety elects to act under Section 5.1, 5.2 or 5.3, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Construction Contract. Subject to the commitment by the Owner to pay the Balance of the Contract Price, the Surety is obligated, without duplication, for

- .1 the responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;
- .2 additional legal, design professional and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Section 5; and
- .3 liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.

§ 8 If the Surety elects to act under Section 5.1, 5.3 or 5.4, the Surety's liability is limited to the amount of this Bond.

§ 9 The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Construction Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than the Owner or its heirs, executors, administrators, successors and assigns.

§ 10 The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders and other obligations.

§ 11 Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and shall be instituted within two years after a declaration of Contractor Default or within two years after the Contractor ceased working or within two years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this Paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

§ 12 Notice to the Surety, the Owner or the Contractor shall be mailed or delivered to the address shown on the page on which their signature appears.

§ 13 When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

(Architect, Engineer or other party:)

§ 1 The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the Owner to pay for labor, materials and equipment furnished for use in the performance of the Construction Contract, which is incorporated herein by reference, subject to the following terms.

§ 2 If the Contractor promptly makes payment of all sums due to Claimants, and defends, indemnifies and holds harmless the Owner from claims, demands, liens or suits by any person or entity seeking payment for labor, materials or equipment furnished for use in the performance of the Construction Contract, then the Surety and the Contractor shall have no obligation under this Bond.

§ 3 If there is no Owner Default under the Construction Contract, the Surety's obligation to the Owner under this Bond shall arise after the Owner has promptly notified the Contractor and the Surety (at the address described in Section 13) of claims, demands, liens or suits against the Owner or the Owner's property by any person or entity seeking payment for labor, materials or equipment furnished for use in the performance of the Construction Contract and tendered defense of such claims, demands, liens or suits to the Contractor and the Surety.

§ 4 When the Owner has satisfied the conditions in Section 3, the Surety shall promptly and at the Surety's expense defend, indemnify and hold harmless the Owner against a duly tendered claim, demand, lien or suit.

§ 5 The Surety's obligations to a Claimant under this Bond shall arise after the following:

§ 5.1 Claimants, who do not have a direct contract with the Contractor,

- .1 have furnished a written notice of non-payment to the Contractor, stating with substantial accuracy the amount claimed and the name of the party to whom the materials were, or equipment was, furnished or supplied or for whom the labor was done or performed, within ninety (90) days after having last performed labor or last furnished materials or equipment included in the Claim; and
- .2 have sent a Claim to the Surety (at the address described in Section 13).

§ 5.2 Claimants, who are employed by or have a direct contract with the Contractor, have sent a Claim to the Surety (at the address described in Section 13).

§ 6 If a notice of non-payment required by Section 5.1.1 is given by the Owner to the Contractor, that is sufficient to satisfy a Claimant's obligation to furnish a written notice of non-payment under Section 5.1.1.

§ 7 When a Claimant has satisfied the conditions of Sections 5.1 or 5.2, whichever is applicable, the Surety shall promptly and at the Surety's expense take the following actions:

§ 7.1 Send an answer to the Claimant, with a copy to the Owner, within sixty (60) days after receipt of the Claim, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed; and

§ 7.2 Pay or arrange for payment of any undisputed amounts.

§ 7.3 The Surety's failure to discharge its obligations under Section 7.1 or Section 7.2 shall not be deemed to constitute a waiver of defenses the Surety or Contractor may have or acquire as to a Claim, except as to undisputed amounts for which the Surety and Claimant have reached agreement. If, however, the Surety fails to discharge its obligations under Section 7.1 or Section 7.2, the Surety shall indemnify the Claimant for the reasonable attorney's fees the Claimant incurs thereafter to recover any sums found to be due and owing to the Claimant.

§ 8 The Surety's total obligation shall not exceed the amount of this Bond, plus the amount of reasonable attorney's fees provided under Section 7.3, and the amount of this Bond shall be credited for any payments made in good faith by the Surety.

§ 9 Amounts owed by the Owner to the Contractor under the Construction Contract shall be used for the performance of the Construction Contract and to satisfy claims, if any, under any construction performance bond. By the Contractor furnishing and the Owner accepting this Bond, they agree that all funds earned by the Contractor in the performance of the Construction Contract are dedicated to satisfy obligations of the Contractor and Surety under this Bond, subject to the Owner's priority to use the funds for the completion of the work.

§ 10 The Surety shall not be liable to the Owner, Claimants or others for obligations of the Contractor that are unrelated to the Construction Contract. The Owner shall not be liable for the payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligation to make payments to, or give notice on behalf of, Claimants or otherwise have any obligations to Claimants under this Bond.

§ 11 The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders and other obligations.

§ 12 No suit or action shall be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the state in which the project that is the subject of the Construction Contract is located or after the expiration of one year from the date (1) on which the Claimant sent a Claim to the Surety pursuant to Section 5.1.2 or 5.2, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Construction Contract, whichever of (1) or (2) first occurs. If the provisions of this Paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

§ 13 Notice and Claims to the Surety, the Owner or the Contractor shall be mailed or delivered to the address shown on the page on which their signature appears. Actual receipt of notice or Claims, however accomplished, shall be sufficient compliance as of the date received.

§ 14 When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

§ 15 Upon request by any person or entity appearing to be a potential beneficiary of this Bond, the Contractor and Owner shall promptly furnish a copy of this Bond or shall permit a copy to be made.

2.3 NURSE CROP

- A. Nurse crops such as annual rye can be planted with the native seed to stabilize the soil and reduce weed growth. Use Annual Rye (5 lbs/acre) for spring planting. Use Annual Rye (15lbs/acre) for late fall planting.

2.4 WATER

- A. Use water free of wastewater effluent or other hazardous chemicals.

2.5 MULCH

- A. Clean straw or marsh hay that is well-seasoned, and free of rot, mildew and the seeds of noxious weeds.

2.6 EROSION CONTROL BLANKET

- A. 100% biodegradable weed free wood excelsior, straw, or coconut-fiber mat enclosed in a biodegradable netting stitched with biodegradable thread/yarn, (biodegradable within 12 months of installation) or net free. Include manufacturer's recommended steel wire staples, 6" (150 mm) long or biodegradable anchoring staples, T shaped with barbed head and shoulders, 6" (150 mm). Wisconsin DOT approved Class 1 Urban Type B erosion mat or similar are acceptable. Biodegradable materials are intended to avoid entrapment of animals.

2.7 NONSELECTIVE HERBICIDES

- A. EPA registered and approved glyphosate-based herbicide (broad spectrum, non-persistent) intended for vegetation removal while preparing seed beds and for maintenance during establishment period and recommended surfactants and adjuvants.

PART 3 EXECUTION

3.1 WEED CONTROL

- A. On a daily basis, prior to entering the project site all equipment to be used at the project shall be sprayed clean of all dirt, sod, or foreign matter with high-pressure water in an upland location outside of the project site that does not drain to the site or in Contractor's shop. Equipment cleaned shall include, but is not limited to, all dozers, scrapers, backhoes, trucks, shovels, picks, and hand tools that enter the project site. Special care shall be taken to cleanse the underbody, suspension, tracks, wheels, tires, and wheel wells of all motorized equipment. If necessary, hand tools, brushes, or scrapers may be required to remove heavy accumulations of debris from any item. After a thorough cleaning and inspection, each item of equipment shall be allowed to enter and be used on the project site. If it is necessary for the equipment to leave and reenter the project site, each item shall be cleaned and inspected.

3.2 PREPARATION

- A. Complete grading, shouldering, topsoiling before permanent seeding. Just before seeding, work the area with discs, harrows or other appropriate equipment to obtain a reasonably even and loose seedbed.

- B. No seeding shall occur on frozen ground or at temperatures lower than 32° F (0° C).
- C. For spring planting mow vegetation to 4 inches or less in height 4-6 weeks before seeding. Ten days after mowing, spray vegetation with a broad spectrum, non-persistent glyphosate-based herbicide per manufacturer's instructions. Retreat vegetation with broad spectrum, non-persistent glyphosate-based herbicide after initial application if live vegetation persists. Seeding or planting should occur after time period specified by manufacturer.
- D. 3.3For fall planting mow vegetation to 4 inches or less in height 4-6 weeks before seeding. Ten days after mowing, spray vegetation with a broad spectrum, non-persistent glyphosate-based herbicide per manufacturer's instructions. Retreat vegetation with broad spectrum, non-persistent glyphosate-based herbicide after initial application if live vegetation persists. Seeding or planting should occur after time period specified by manufacturer.

3.3 SOWING

- A. Sow the selected seed mixture with a No-Till type drill with one or more seed boxes that can be calibrated independently to deliver different sized seeds uniformly at the required rate equipped with area-mounted press wheel for each seed drop tube or by scattering it uniformly over the areas to be seeded. If seeding into existing vegetation use a rangeland type drill with a no-till attachment that can cut through the thatch in front of the V disc and seed drop tube. If the configuration of the area to be seeded allows, apply at ½ the specified seed rate and apply the second ½ in a perpendicular direction.
- B. Hand broadcast seeding may be used for small areas with difficult access on prepared seedbeds. Follow by light raking or dragging to cover the seed with approximately ¼ inch of soil. If the seedbed is too loose or if the seedbed contains clods that might reduce seed germination lightly roll or compact the areas using suitable equipment, preferably the cultipacker type. Do not roll slopes steeper than 1:3.

3.4 SEEDING RATES

- A. Use the following seed rates for seeds in pounds per 1000 square feet of area: ¼ lb per 1000 square feet (approximately 8-10 lb per acre).

3.5 MULCHING AND EROSION CONTROL

- A. A covering of 1-2 inches of weed-free straw or marsh hay after seeding holds moisture and increases germination. This is particularly important on dry sandy soils and heavy clay soils. Straw should completely cover the soil surface. Chop and blow straw onto the area. On steep slopes and windy sites applying a erosion control blanket instead of straw mulch.
- B. Erosion control blanket or mat shall be installed on slopes of 30% or greater and other locations where indicated.

3.6 CLEANING AND REPAIR

- A. Waste and excess material from the seeding operation shall be promptly removed. Adjacent paved areas are to be cleaned, and any damage to existing adjacent turf areas shall be repaired.

3.7 GENERAL MAINTENANCE

- A. Immediately reseed areas which do not show a developing stand of cover. Reseeding shall be the same as that originally specified for that particular area. As native mixtures are difficult to assess the first year of growth, satisfactory establishment of the cover crop and general erosion control in these mixes shall constitute baseline establishment. Development of native seeds will be assessed as noted below.
- B. Correct damage resulting from erosion, gullies, rills, or other causes by filling with topsoil, tamping, and reseeding if damage occurs prior to end of warranty period.

3.8 MAINTENANCE

- A. Begin maintenance immediately after each area is planted and continue until acceptable Native Seeding is established.
- B. Maintain Native Seeding for the first growing season following initial acceptance and through the **second** growing season.
- C. Maintain by mowing the planting when the nurse cover or weed vegetation reaches a height of 10"-12". Mow to a height of 6" except for first mowing which shall be to a 4" height. Mowing can be expected approximately every 3-4 weeks the first season depending on the weed species present. Raking and removal of clippings shall occur when greater than 50% of the plant height is removed.
- D. Water just enough to keep the soil moist, every other day for 15 minutes to half an hour to maintain adequate surface soil moisture for proper seed germination. Watering shall continue for not less than 30 days following seeding. After the first eight weeks water only if it does not rain for one week, continue watering until final acceptance.
- E. During the second and third growing seasons one mowing is required in early June, mow to a 6" height. Mow using a flail type mower, which will finely chop and not smother the new seedlings.
- F. Selectively treat with a broad spectrum, non-persistent glyphosate-based herbicide aggressive weeds such as Canada Thistle and Horsenettle. Treat only on cool windless days preferably by gloved hand wiping method.
- G. Prior to Initial Acceptance and during the Warranty period beginning with the Initial Acceptance:
 - 1. Weeding Inspection: Inspect the seeded areas at a sufficient frequency to ensure that weeds do not re-seed themselves. Minimum inspection frequency shall include a spring, summer, and fall inspection.
 - 2. Notify the Owner and Architect/Engineer of the inspection no less than 48 hours prior to an inspection. The inspections shall be performed with Owner and Architect/Engineer in attendance. A report of the findings will be sent to the Contractor including agreed upon maintenance required.
 - 3. Implement the appropriate weed control approach(es) within 7 calendar days of the inspection, as conditions allow. If weather and/or site conditions would cause unnecessary damage to the site,
 - 4. Notify the Owner and Architect/Engineer and provide a schedule for implementing the maintenance protocols.
 - 5. Maintain the weed coverage at less than 10 percent of the seeded area. Weed control methods shall be approved by Owner and the Architect/Engineer.
 - 6. Track maintenance activities performed (including herbiciding, weeding, seeding, and watering) and provide a written report to the Owner at the end of the first full growing season documenting the completed activities.
 - 7. Other maintenance activities may be completed at the Contractor's discretion to meet the Warranty performance criteria. Notify the Owner of planned additional maintenance activities prior to implementation.

3.9 WARRANTY

- A. Contractor shall warranty all seeding for a period of one full growing season, beginning with the Initial Acceptance.
- B. After one full growing season, all areas receiving seed:
 - 1. The seeded species including cover crop shall provide at least 65% coverage with no area devoid of the seeded species greater than 9 square feet.
 - 2. The weed coverage shall be less than 25%.

3. Notify Owner and Architect/Engineer to set up an end of first full growing season warranty inspection.
- C. If the Contractor fails to meet the Warranty performance criteria at the end of the first full growing season, the Owner, Architect/Engineer and Contractor shall agree to an approach for increasing the density of the seeded species and/or decreasing the density of weeds, which may include but not be limited to:
1. Herbiciding portions of or the entire seeded area.
 2. Re-seeding portions of or the entire seeded area.
 3. Selective use of live plants.
- D. If over 25 percent of the seeded area requires non-selective herbiciding and re-seeding at the end of one full growing season, the Contractor shall provide additional Maintenance for one full growing season following the Warranty period for the re-seeded areas.

3.10 WARRANTY INSPECTIONS

- A. Owner, Architect/Engineer will perform a warranty inspection at the end of the first full growing season.
- B. The inspection will consist of visual inspection of each predefined seeded areas.
- C. The visual inspection will be used to determine conformance with warranty provisions.
- D. After the warranty inspection, a written inspection report will be provided to the Contractor documenting the findings and listing the suggested approach for meeting warranty provisions.
